

SKILLS

LANGUAGES: Javascript, Python, SQL, HTML, CSS
FRAMEWORKS/LIBRARIES: React, Node, Express, Flask, Jasmine/Jest Testing
TOOLS: PostgreSQL, SQLAlchemy, RESTful API's, Git

SUMMARY

Software Developer focused on delivering solutions that support team and business growth while enhancing the customer experience. I have 16 years of sales and leadership experience that has advanced my ability to analyze and identify the right problems to then strategize and develop solutions with a positive impact. Proficient in JavaScript and Python, seeking an entry level developer position with a company that has a great company culture. Open to remote/hybrid/onsite roles as well as relocation.

PROJECTS

BLOGSTONE

- A blog space built using React, Node/Express, SCSS and PostgreSQL database
- Full CRUD capability, external API calls and password encryption for user registration
- This project helped further my understanding of React Hooks and Node Routing

Live App - <http://blogstone.surge.sh>

JOBLY

Jobly is a mock job portal showcasing the following:

- React.js front-end
- Node and Express back-end with a SQL database
- Users are able to sign up, view companies and job postings with visibility to salary, equity and company information

Live App - <http://elfin-breath.surge.sh>

SPOTIT

SpotIt was developed for the skateboard community to upload and find skateparks or skate spots in the users area.

- Backend created with Python/Flask | Frontend created with CSS and Bootstrap | Database created with PostgreSQL
- GoogleMap API's used for maps and directions
- Other technologies used; WTForms, Jinja, SQLAlchemy, Axios, BCrypt

For a quick demo- Click on Search or log in using "Test" credentials on the log in page

Live App - <https://spot-it-project.herokuapp.com/>

EMPLOYMENT

APPLE INC.

Manager

Las Vegas, NV
Mar. 2020 to Dec. 2021

- Support and oversight of 150+ employees in all areas of business- Genius Bar | Business Team | Operations | Sales
- Curated quarterly strategy with all departments resulting in quarter after quarter top performance in multiple KPI's
- Developed and supported Genius Bar best practices resulting in Divisional Ovation Award (first time in 4 years)
- Trained sales teams by learning new technologies and teaching how they might present to customers

ZUMIEZ INC.

District Manager

Las Vegas/NV
Nov. 2006 to Feb. 2020

Promoted to District Manager in 2014. Store Manager from 2008-2014. Assistant Manager from 2006-2008

- Provided leadership, guidance and mentorship for 9 stores in NV/UT ranging from 100-250 employees
- Implemented strategy as the company navigated digital sales environments, evolving from brick+mortar only
- Created 3 year plan scaling my territory from last place(14th) in our Division to top 3 consistently in 2018/2019
- High level decision making impacting cultural values, team/CX experience, sales, payroll and inventory results

At a National Level:

- Assisted with design decisions and testing UX for Zumiez Stash App and in-house scheduling software
- Collaborated on development of national company retreats for 1000+ employees
- Executed above retreats including public speaking and development of 500+ new store managers/district managers
